About Our Organization: IDA – GA

The International Dyslexia Association Georgia Branch is here to serve the needs of families, educators and professionals concerned with struggling readers. IDA Georgia is a non-profit organization dedicated to helping individuals living with dyslexia, a learning difference that affects up to 20% of the U.S. population, as well as their families and the communities that support them.

Our goal is to provide essential research-based information about assessment, diagnosis, resources, and appropriate educational intervention. We offer information and referrals, community outreach events, professional education conferences, and teacher training opportunities to increase public awareness and remediation of dyslexia.

Learn About Dyslexia

- Dyslexia is a specific learning disability that is neurological in origin.
- Dyslexia is the most common cause of reading, writing, and spelling difficulties.
- 15-20% of the population has a language-based learning disability.
- 74% of children who are poor readers in 3rd grade remain poor readers in 9th grade and into adulthood.
- Of the students with a specific learning disability receiving special education services, 70-80% have deficits in reading.

Make A Difference

Your sponsorship of the Dyslexia Dash helps IDA-GA in its efforts to spread the word about dyslexia, helping families, educators and professionals with tools and resources. Funds raised from the annual Dyslexia Dash help:

- Support the dyslexia community through seminars and IDA-GA outreach meetings
- Deliver teacher training for those that would not otherwise receive it
- Provide the Georgia community with information and referral services
- Keep the IDA-GA branch website up to date to inform the community about dyslexia
- Provide scholars to the GA Branch Annual Dimensions of Dyslexia Conference
